

Marc Crasto

mcrasto2@uwo.ca | (416) 628-6443 | London, ON | [Portfolio](#)

EDUCATION

University of Western Ontario

Bachelor of Science

Anticipated May 2026

London, ON

- **GPA: 3.5/4.0;** Dean's Honor List (2022; 2025)
- Honors Specialization in Computer Science
- Relevant Coursework: Introduction to Machine Learning, Artificial Intelligence I, Artificial Intelligence II

RELEVANT EXPERIENCE

Western Cyber Society

Student-led cybersecurity and AI organization

Sep. 2025 – Apr. 2026

Machine Learning Developer

London, ON

- Developing a Convolutional Neural Network aimed at detecting skin cancer from medical images
 - **Tech Stack:** Python, PyTorch, Torchvision (EfficientNetV2-S), Scikit-learn, Optuna, NumPy, Pandas, PIL
- Identified and used the cleaned Fitzpatrick dataset, reducing data redundancy and ensuring the model's reduced bias across skin tones

Western Developers' Society

Student-led software development organization at Western University

Sep. 2024 – Apr. 2026

Machine Learning Developer | Sep. 2025 – Apr. 2026

London, ON

- Developing a Vision-Language Model that integrates images and text to identify inappropriate content in 3D printing
 - **Tech Stack:** Python (Scrapy, BeautifulSoup, Selenium), Vision-Language Models (VLMs)
- Researched VLM architectures to inform training strategy and multimodal fusion design; presenting the project at CUCAI 2026

Machine Learning Developer | Sep. 2024 – Apr. 2025

London, ON

- Collaborated with a SCRUM team of seven to develop a bidirectional LSTM for predicting bus arrival times in London, Ontario
 - **Tech Stack:** Python, PyTorch, NumPy, Pandas, RESTful APIs, Slack
- Reduced predicted vs. actual arrival time discrepancies by 17% compared to Google Maps by integrating real-world weather data into transit schedules

DataAnnotation

AI-training platform that hires remote contractors to train AI models by testing chatbots

Jun. 2023 – Dec. 2024

AI Chatbot Evaluator

London, ON

- Conducted detail-oriented evaluations of AI chatbot responses to ensure high accuracy and reliability
- Performed this role for 19 months alongside full-time studies, consistently meeting professional and academic deadlines

Western AI

Student-led AI organization

Sep. 2023 – Apr. 2024

Full-Stack Developer

London, ON

- Developed and live-demonstrated a financial forecasting web application at CUCAI 2024
 - **Tech Stack:** HTML, CSS, Python Flask, Git
- Adapted swiftly to team changes by managing both frontend and backend tasks, learning full-stack development in 2 weeks, and completing a pivot from an AI poker player app to a financial forecasting app in 1 month during exams

VOLUNTEER EXPERIENCE

Charity Chords UWO

Member & Performer (Drummer)

Sep. 2022 – May 2023

London, ON

- Performed as a drummer at community events, collaborating with bandmates to rehearse and prepare for live performances

Christ Junior College Residential

Student Editor

May 2019 – Mar. 2020

Bangalore, Karnataka

- Assigned students to cover school events for publication in the school magazine, ensuring timely and complete submissions
- Compiled and consolidated finalized articles, maintaining structured file organization for submission to the printing team

Shalom Children's Home

Volunteer

Aug. 2019 – Sep. 2019

Bangalore, Karnataka

- Volunteered in an orphanage, supporting meal service, activities, and daily routines with reliability and professionalism
- Engaged with children through singing, drawing, and supervised activities, applying strong interpersonal skills

CERTIFICATIONS, SKILLS & INTERESTS

- **Certifications:** Scientific Computing with Python; Data Analysis with Python
- **Skills:** Multitasking; Adaptability; Time Management; Critical Thinking; Problem Solving; Team Collaboration; Communication; Data Analysis; Project Management; Leadership
- **Interests:** 70s and 80s Rock; Guitar (Intermediate); Vocals (Tenor at Dream in Progress Productions); Soccer (FC Barcelona); Gym
